Balanga City, Bataan, Philippines

Summary

Computer Science student specializing in Software Development, with hands-on experience building full-stack web and mobile applications. Led a capstone development team, delivered client projects, and competed in hackathons. Seeking a Full-Stack Developer role on a collaborative engineering team.

Education

Bachelor of Science in Computer Science Major in Software Development

Bataan Peninsula State University **Expected Graduation Date: 2027**

Projects & Relevant Experience

Thesis Project: Intellectual Property Rights Management of Digital Artworks

Bataan Peninsula State University **January 2026 – October 2026**

- Awarded **Best Paper** and individually recognized as **Best Presenter** at the 16th IHREX (College's In-House Review & Research Exhibit).
- Spearheaded a 3-person development team through the full software development lifecycle, from requirements gathering to deployment and thesis defense.
- Modeled and implemented the database schema in Supabase (PostgreSQL), structuring tables for users, registered artworks, reports, plagiarism scans, blockchain records, and system administration.
- Integrated Cloudinary, FastAPI, and blockchain services to automate artwork processing and proof-of-authorship verification.

Freelance Full-Stack Developer

Project-Based | Remote **January 2026 – Present**

- Collaborated directly with a client to gather requirements and translate business needs into a functional software solution.
- Implemented application features that integrate weather-based planning with crop management, enabling farmers to optimize planting schedules.
- Delivered the completed application on schedule, satisfying 100% of the client's functional requirements prior to project handoff.

AI in UX Hackathon Finalist (Top 10)

Home Credit x KadaKareer **November 2025 – December 2025**

- Integrated Generative AI technologies to power personalized user assistance and intelligent user experience features.
- Collaborated with a multidisciplinary team of **4** consisting of software developers and designers to build and pitch a functional prototype under strict deadlines.
- Advanced to the Top 10 finalist teams among 400+ student participants representing 60+ schools in the national Home Credit × KadaKareer AI in UX Hackathon.

Skills & Technologies

Programming Languages
JavaScript, TypeScript, Python, PHP, Java, C#, C++

Frontend
React, Next.js, HTML, CSS, Tailwind CSS, Vite

Backend
Node.js, FastAPI, Flask, Laravel

Databases
MySQL, PostgreSQL, Supabase, SQLite

Tools & Platforms
Git & GitHub, Docker, Cloudinary, Vercel, Figma, Postman

Testing & Quality Assurance
Playwright, API Testing, Debugging & Troubleshooting

Certification

Complete Intro to Web Development Frontend Masters – 2024	**Software Development** **Certiport – 2025**	**Cybersecurity** Certiport – 2026
HTML and CSS Certiport – 2025	**Cyber Threat Management** Cisco - 2026	**IC3 Digital Literacy Level 1 & 2** Certiport – 2024, 2025
